If your data fits in memory there is no advantage to putting it in a database: it will only be slower and more frustrating.

"Databases are frustrating"

- Installation
- Maintenance
- Data Transfer

- Query Optimization
- Persistence
- Updates & Consistency
- Efficiency & Parallelism

User

One More Thing

“DuckSpark”

Demo

- An in-process analytical data management system
- Simple, Feature-Rich, Fast, Free. Choose all four.
- Deeply integrated with Python, Pandas, Apache Arrow
- Questions?
- `pip install duckdb`
